

24/7 Primed

Visual Alarm Verification

Visual Alarm

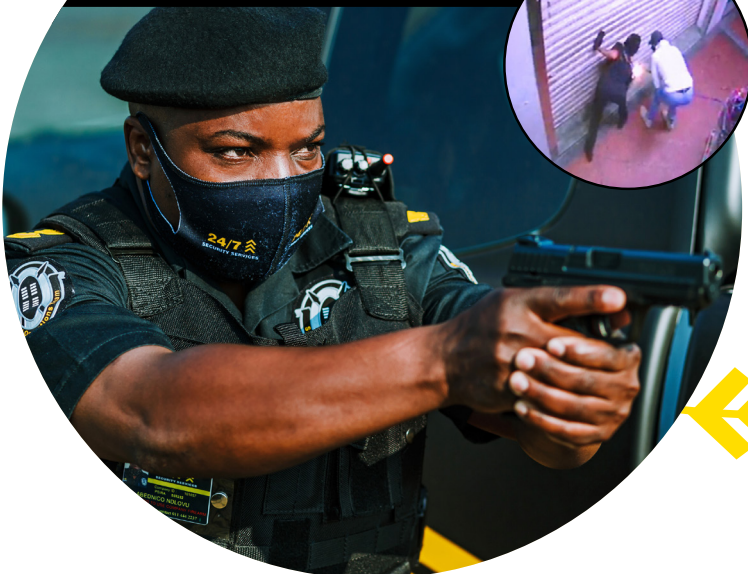

24/7
Command Centre

24/7 Primed

An alarm, triggered through a video system, immediately alerts the 24/7 Command Centre, the Armed Reaction First Responder and the End-users. Results in real-time visual verification and best operational approach.

Armed Reaction
First Responder

End-user App

24/7 Primed is a state-of-the-art visual alarm verification system that surpasses all other readily available systems in its category. It offers accurate 360-degree monitoring and escalation for both home and business premises. An alarm, triggered through a video system, immediately alerts the 24/7 Command Centre, the Armed Reaction First Responder and the End-users - all at the same time. This results in real-time visual verification for all the primary points of contact and the best operational approach is instantly implemented.

Reduced risk. Reduced costs. Increased efficiency.

Primary Benefits:

- Real-time visual alarm verification
- False alarm eliminations
- Response call-out reduction
- First responder escalation
- Easy to install – wireless and Eskom free
- Connect to existing systems
- Effective perimeter solution
- Rental solution
- APP: arm/disarm and push notification
