

**Mobile App for
24/7 Security
Armed Response
Subscribers**

The 24/7 Security Mobile App includes a PANIC BUTTON on your phone. This cutting edge mobile security application turns your smart mobile device into your personal home alarm management system. This application is free to download, connects you directly to the 24/7 Security Control Room and instantly informs you of any activity on your monitored premises.

The 24-7 Security Mobile App enables you to:

- Activate the panic button functionality – through geo-location* the App will alert the Control Room of your exact location (*mobile location settings need to be active)
- Seamlessly manage your security profile, including key holder's details, holiday instructions and site contact personnel
- Test your alarm system to ensure correct alarm functionality
- Log calls for technical support
- Medical emergency activation, supported by Netcare 911
- Fire emergency activation, the Control Room will contact your nearest Fire Station
- Access the 24/7 Security Meet and Greet Service (Service subject to availability of a vehicle in your area)
- Download the FREE App - 24-7 Security - from the iStore or Google Play Store

24/7 Security Mobile App Registration
