SMART SENTRY - SECURITY ON THE GO

24/7 Smart Surveillance's Smart Sentry provides mobile off-site monitoring for temporary, short-term or hard-to-reach sites

The Smart Sentry utilises the same trusted technology in a user-friendly, smart format:

- Easy on-site deployment – no electricity required
- Detection of human and vehicle activity alerts the 24/7 Command Centre
- Instant deterrents through audio and pepper spray activations
- 24/7 Command Centre deploys Armed Reaction teams

The Smart Sentry is a mobile electronic guard. Affordable monthly rental options make it the smart choice for infrastructure protection, deployment at events, residential estates, construction, and mining sites.

Features

- Easy deployment
- Solar-powered
- Human and vehicle detection
- Audio and pepper spray fight-back systems
- Substantial battery storage
- Expandable mast height – 4 meters +
- 4G LTE GSM router
- 360° camera detection
