

Your Ticket to a Safer Day Out

The last few months of the year bring warmer weather and a calendar full of festivals, outdoor events, markets, and concerts. If you're heading to an event, a little planning and awareness can help you enjoy the occasion safely.

Plan Your Journey

Familiarise yourself with the venue, travel routes and parking arrangements before you leave. Arrange reliable transport home.

Be Aware of Your Surroundings

Allow enough time for security checks and to find your seats or a suitable viewing area without rushing. Keep an eye on what is happening around you, particularly in crowded areas. Immediately report suspicious activity to event security.

Follow Event Guidelines

Observe the organisers' rules and follow instructions from event staff, especially during an emergency.

On arrival, identify emergency exits and check where medical assistance is available. Keep exit routes clear and follow staff instructions if an evacuation is necessary.

Stay Connected

Charge your cell phone before you leave, and agree on a meeting point with your group in case you get separated. Keep children close and make sure they know who to approach for help.

Keep Valuables Secure

Carry only what you need and avoid displaying cash or expensive jewellery. Keep bags closed and your cell phone secure. Never leave it unattended on a table or bar counter.

Always trust your instincts - if a situation feels unsafe, move to a safer area and alert event staff or security.

Enjoy the atmosphere, look out for one another and keep safety part of your plans.
